This will be the second year that the Township will be offering free ice skating to the Community at our rink in the park. With the warmer winter than usual last year, we were limited on the time that the ice was frozen. With the rink moved to the back of the park on a level surface, we hope to have more days of skating. Many families enjoyed the rink and it was a big hit with the Community. Some had skates and some just had fun sliding on the ice.

The Township purchased the portable rink last year. It comes with a liner that holds in the water. After a few years use the liner needs to be replaced. We have purchased liner savers this year to help protect the liner at the walls. This area gets a lot of abuse from skates and pucks. Hopefully they will help in extending the life of the liner.

We are offering businesses and organizations an opportunity to show their support by having their name on the liner savers. The revenues from this program will go to the purchase of future liners.

The initial year is \$150 This will cover the cost of the liner saver and your information on them.

After the initial year, you will have the option to renew your liner saver for \$75.

We appreciate your support of the community rink. Those who participate will also be featured on our website and Facebook page.

Thank You for your consideration.
